

## **Product Announcement**

# **Baxall ICE Range of Cameras & Domes**

10/08/2006

### **Ice – what is it?**

- ❑ Ice is a new brand and range of cameras and mini-domes manufactured by Baxall Ltd offering the best resolution on the market, coupled with valuable installer friendly features

### **Ice – overview**

- ❑ Ice camera range - all the expected features and ideal for most applications
- ❑ Ice+ camera range - perfect for more complex applications with advanced features
- ❑ Ice IP camera – streaming 4CIF MPEG4 video
- ❑ Ice dome range - fixed mini domes for every camera scene

### **Key benefits/features**

#### ***Resolution***

- ❑ The latest sensor technology and specialist software gives the best resolution on the market. 540TVL options gives Ultra high resolution where every detail counts

#### ***Installation***

##### *Domes*

- ❑ The Baxall 3-axis GyroView technology giving the installer the flexibility to exactly position the camera after installation is complete
- ❑ The versatile design allows for ceiling mount / surface mount options through the same unit
- ❑ An extra service video output on the front of the dome enables the installer to focus the camera without the need for a call to the control room

##### *Cameras*

- ❑ The new Ice camera has a thumbwheel back focus mechanism and easily accessible dipswitches on the rear of the camera to ensure a speedy and practical installation

#### ***Design***

- ❑ Attractive and stylish look and feel, with the Ice domes having bubble options to meet the needs of the camera's architectural environment

#### ***Range***

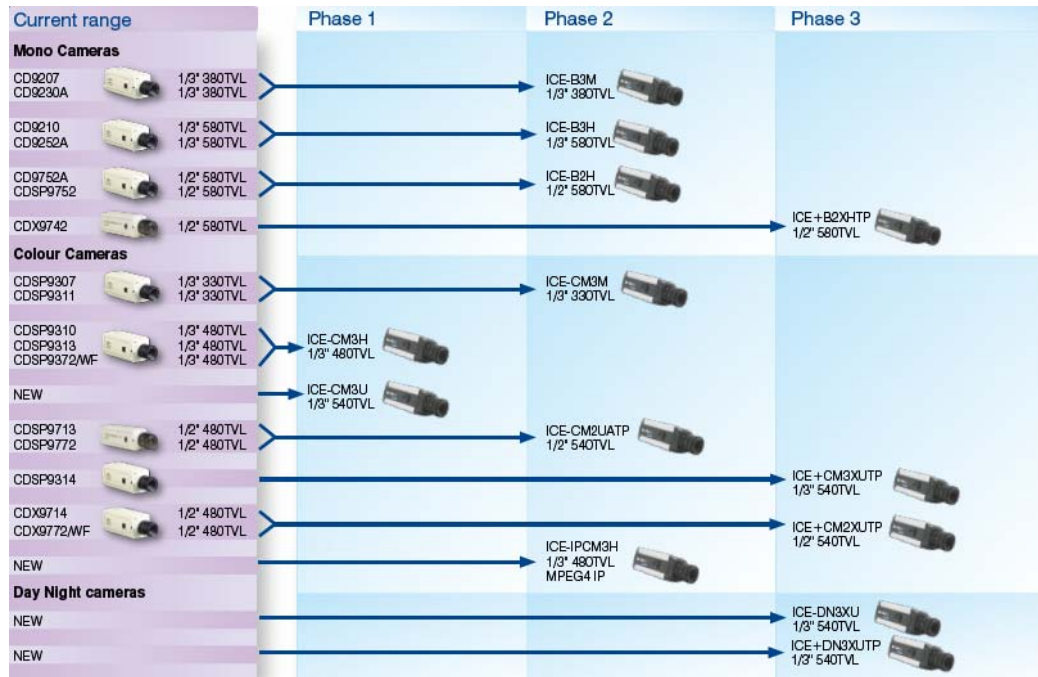

- ❑ The standard Ice and Ice+ range contains a choice of mono, colour and day/night cameras to cover the mass market and higher end applications
- ❑ An Ice IP camera is also an option when high resolution 4CIF MPEG4 streaming is required
- ❑ The ICE dome range not only contains a high resolution mono and colour camera, it has an ultra resolution 540TVL colour, a true day/night dome camera and Baxall's award winning Hyper-D technology as a Hyper-Dome

### **Vandal proof domes**

- ❑ ...Coming soon each of the domes will be available in an option of vandal proof indoor and outdoor housings (IP66)

... **More information** – ... An overview brochure and specific datasheets are available for all the models in the range
