Playback

Evidential viewing

- Playback

Playback of pre recorded evidential "CD or DVD's" through the Vivid lite FSK or Plus units:
This feature allows you to check the archived evidence before handing it over to the police.

- Virtual Matrix – Cascading Multiple units

Several DVR's can be viewed via a single monitor, when a BaxNet keyboard and Desk switcher are connected to the Vivid units.

With the new keyboard software seamless operation is enabled for up to 128 cameras

- Logical alarms

Alarm input can be linked with Motion detection to provide an "and / or" alarm state. (BS8418)

- Vicon dome support.

VIRTUAL MATRIX   Achieved by linking 1 switcher to eight Vivids

Relay outputs
Monitor outputs
Up to 8 Vivid units
